

Quality Policy

Stephenson Group Ltd formulates manufactures and supplies high performance products designed to meet our customer's specified requirements for use in the Personal Care, Textiles, Industrial and Beverage markets that we serve.

We are committed to remaining compliant with all relevant legislation and other voluntary standards; and will never compromise on the safety or quality of our products and services.

We shall endeavour to continually monitor and improve all areas of the business to drive forward the company strategy of applying creative chemistry to develop speciality ingredients that add value to our customer's products and brands.

The quality objectives of the Stephenson Group Quality Management System are set out to provide all interested parties with top quality products and customer experience in order to drive forward our position as a known manufacturer. These objectives will be achieved through internal and external audits, review meetings, employee engagement and continuous improvement.

All the objectives set out in the quality policy will be reviewed by the senior management team continually throughout the year and changes made where required to improve the quality of Stephenson Group products and services.
